We fight for:

- Secure jobs and collective agreements for all – away with slave-like working conditions and racist division.
- Stop rent increases and food price hikes - raise child benefits, income support and pensions.
- Welfare without private profit and welfare for ALL.
- All children have the right to good and equal education.
- Fight militarism and war. NO to Swedish membership of NATO.
- Fight against class inequality: let big business, banks and billionaires pay. For democratic socialism with public ownership of the big companies and democratic rule by the workers.

Rättvisepartiet Socialisterna (RS) is not like other parties. We organise struggles in the streets, neighbourhoods and workplaces:

- We are a driving force in the *No to Market Rent Network*. 200 protests last spring created the pressure that brought down the government and scrapped the market rent proposal, which would have meant 30-90% higher rents.
- **In Luleå**, several schools were saved from closure by a big protest movement involving thousands of parents and students. We have also pressured the city council to introduce better protective equipment against infection for elderly care workers.
- **In Haninge**, we have stopped the reduction of council workers' health care allowance, preschool budget cuts, saved leisure centres from closure and forests from being cut down.
- Across the country, we organise and participate in the fight against racism, war, sexism, environmental destruction (like mines), welfare cuts and injustices.

- We organise support for workers on strike, refugees fighting for asylum and international solidarity with trade unionists, women's campaigners, dissidents and political prisoners.

We are the only party whose candidates live on no more than a regular worker's wage, not accepting the privileges politicians receive.

We belong to the International Socialist Alternative, which has parties and groups in over 30 countries. We take part in the struggle against both Russia's invasion of Ukraine and the brutal wars led by the US and NATO.

We stand for the abolition of capitalism and imperialism – for democratic socialist planning according to the needs of people and the environment.
